A woman with dark hair slicked back, wearing a white, draped dress and a necklace of light blue, leaf-shaped pendants. She is lying down against a white wall, looking upwards with her eyes closed. The lighting is soft, creating a gentle shadow on the wall behind her.

ISKINSISTERS

Catalog 2024

Half Brazilian, half Argentinean sisters Gabriela and Karina Iskin are the design duo behind Iskin Sisters. Together, they design jewelry with a contemporary edge. Using unconventional materials such as leather, acrylic and stainless steel, each piece is conceptual and meant to tell a story.

Established in Buenos Aires in 2004, all Iskin Sisters products are hand finished and manufactured in their workshop in Argentina.

Both sisters wanted to create unique pieces, inspired by their childhood, nature, architecture, art and their travels. Many collections are made with pieces that can be turned, twisted and popped into different colors and shapes.

Selected by the most prestigious museum stores, their collections have been exhibited around the globe.

They now are based in Buenos Aires, Argentina and in Madrid, Spain.

Manifesto

United through Art

We strongly believe that art is a fundamental part of our daily life. Something close to us and of our own, which is present in what we choose to express ourselves, in what we wear and show in our bodies.

Art is within our inner essence, in every space we own; it's inserted in our accessories and objects.

We are convinced that the relationship we establish, as individuals, with art, goes beyond boundaries and restrictions, constantly opening new paths.

We trust in a continuum between folk crafts and arts which combine tradition, practice, and experience to achieve an expressiveness that passes through us from multiple edges.

On this journey, we join Argentinian female artists to produce an aesthetic and cooperative experience. Each of our designs is accompanied by an exclusive fine art print specially selected to share with our community to be discovered and enjoyed. Our inspirations and creations thus travel around the world expanding our network in each and every one of its corners.

We invite you to join us on this trip through art.
